Experience

Akij iBOS Limited – Associate Backend Developer May 2026 – Present

- Spearheaded **database optimization initiatives** across multiple ERP modules, enhancing query performance and reducing data redundancy for enterprises including **Bangladesh Military Academy (BMA)**, **Paragon Group**, and **Prince Bazaar**
- Worked on diverse modules including inventory management, financial tracking, and workflow automation, driving significant **business impact** through improved system reliability and performance
- Collaborated with cross-functional teams to analyze business pain points and continuously improve end-to-end ERP workflow performance

Akij iBOS Limited – Backend Developer Intern Jan 2026 – Apr 2026

- Contributed to **Managerium**, a centralized **ERP** platform that automates business processes and streamlines cross-department workflows
- Worked on an ERP project for **Bangladesh Military Academy (BMA)**, designing and developing a **pre-approval workflow**
- Optimized existing ERP modules to reduce redundant steps and improve overall workflow efficiency
- Collaborated with team members to analyze pain points and continuously improve end-to-end ERP workflow performance

Education

American International University-Bangladesh (AIUB) Jan 2022 – Jan 2026

- B.Sc. in Computer Science and Engineering
- CGPA: **3.77 / 4.00**
- **Dean's Award** (Fall 2022 – Fall 2024) – Recognized as top 5% student in CSE department
- **Academic Scholarship** (Fall 2023 – Spring 2024) – Awarded for consistent academic excellence

Competitive Programming

- **Codeforces**: [tanjil](#) – Max Rating: **1211 (Pupil, Top 24% of users)**
- **LeetCode**: [tnjl](#) – Rating: **1653**, Global Ranking: **128,929 / 778,065 (Top 16.91%)**
- Actively solving algorithmic challenges across [LeetCode](#), [CodeChef](#), and [UVA](#)

ICPC Dhaka 2025 Preliminary Nov 2025

- Secured **519th place** among **1,842 teams** competing nationwide as Team **AIUB_logN (Standings)**

Intra-AIUB Programming Contest 2024 Mar 2024

- Secured **21st place** in Senior Category among 100+ participants ([Standings](#))

Projects

Health Care Management API – *ASP.NET, Entity Framework, SQL Server* [GitHub](#)

- Built a **3-tier enterprise application** with SOLID principles and Entity Framework using Code First approach
- Developed RESTful APIs for patient records, appointments, and medical staff management with concurrent database support

Gadgeto – E-commerce Platform – *NestJS, Next.js, PostgreSQL* [Backend](#) | [Frontend](#)

- Engineered full-stack e-commerce platform with product catalog, order processing, and user authentication
- Implemented admin panel with role-based access control, form validation (Zod), JWT authentication, and email notifications

Technical Skills

- **Languages**: C++, C#, JavaScript, SQL
- **Backend**: ASP.NET Core, NestJS, Entity Framework
- **Frontend**: Next.js, React, HTML, CSS
- **Databases**: PostgreSQL, MySQL
- **Tools & Technologies**: Git, GitHub, Postman, JWT, RESTful APIs, Axios, Zod, Mailer
- **Fundamentals**: OOP, SDLC, STLC, Problem-Solving, Testing Principles
